

3 Courses

Java Programming for Beginners

Object Oriented Programming in Java

Java App Development Project: Fundamentals, OOP & File I/O

Nov 20, 2025

HASSAN EL KHATOURY

has successfully completed the online, non-credit Specialization

Java Programming Fundamentals

The certificate earner has demonstrated the ability to build modular Java applications using object-oriented programming (OOP), data structures (HashMap, ArrayList), and file handling. They developed two interactive systems with menu-driven workflows, user input validation, and persistent data storage using serialization. By completing these hands-on projects, the certificate earner proved they can demonstrate basic Java programming skills and implement exception handling, date/time APIs, and reporting logic to build reliable, real-world applications.
